

US Performance Academy

What is USPA?

USPA is a digital, independent, middle and high school designed for high performance athletes. Blending 21st century education with world-class competitive athletics, our school will challenge highly motivated students, providing them with the skills and expertise needed to compete at the highest levels of academics, sport, adventure, and life.

For Students:

- Flexible, personalized course schedule and school calendar
- Support from USPA staff who understand high performance athletes
- Connection to other USPA athletes around the world

For Parents:

- Support and open communication with USPA staff and parents
- Access to student progress in real time
- More family time and less schedule coordination

For Coaches:

- Flexible student schedule for training times and travel
- Support from USPA staff
- Coaches can focus on coaching instead of managing student academic responsibilities.

The USPA Difference

Customizable Schedule

Each USPA student has a personalized course schedule and school calendar to fit their needs. Everything is built around each athlete's training, competition, and travel.

Learning Coaches

USPA learning coaches act as a personal liaison between students, coaches, parents, and teachers. Each student is paired with a learning coach for building their customized academic calendar, orientation, goal setting and serving as a mentor.

Network of Athletes

Connecting students that have similar passions in athletics and academics is highly valuable. USPA's network of athletes is designed for students to connect and relate to the demands and excitement of such high level training and competing.

Life Skills

We value educating the entire student. Organization, accountability, time management, independence, leadership, goal setting, and communication are just a few of the life skills that we teach.

“I joined USPA because I was looking for a way to have both school and practice correspond together. Now I have a schedule that works for me.”

- Jonathan, USPA Student
